FOR IMMEDIATE RELEASE

VIBCO Offers New SandBuster™ Spreader Hopper Vibrator Catalog

VIBCO Vibrators announces the publication of a newly revised SandBuster Spreader Hopper Vibrator catalog, just in time for the snow and ice removal season. The 2009-2010 catalog features the complete line of VIBCO 12 and 24 Volt DC SandBuster vibrators for snow and ice equipment.

The glossy, full color bi-fold catalog is a resource for snow equipment dealers and users. It features technical specifications, product dimensions, and photographs of VIBCO SandBuster Vibrators on a variety of different spreader styles. The catalog is available in print or online via VIBCO's newly redesigned website at www.vibco.com

"This new catalog comes at a perfect time for snow equipment dealers and operators. Serious budget constraints mean that ice control operations must be more efficient and make better use of labor hours and expensive ice control mixes. Our SandBuster line helps them do just that," says Karl Wadensten, VIBCO President.

VIBCO's SandBuster Vibrators are available in a wide variety of sizes to suit any mobile snow equipment application including v-box spreaders, tailgate spreaders, side dump bodies and dump bodies.

"High humidity and low temperatures make ice control mixes really difficult to move – especially those with a high sand to salt ratio," says Al Carocci, VIBCO's Chief Engineer. "These mixes have a tendency to stick to the sides of the hopper and cause problems – wasted mix, drivers out of the cab to shovel, inconsistent road coverage, etc. Our SandBuster vibrators break the friction between the material and the sides of the bin so the ice control mix flows freely through the spreader and onto the road."

About VIBCO Vibrators

Founded in 1962, VIBCO Vibrators designs, manufactures and markets a comprehensive range of electric, pneumatic and hydraulic vibrators for construction and industrial use. VIBCO Vibrators also designs, manufactures and markets a complete line of vibratory plate compactors and rollers. All standard VIBCO products are available from stock same or next

day and the company is committed to quality, throughput and innovation. VIBCO Vibrators is headquartered in Wyoming, RI, USA and all VIBCO products are Made in the USA.
