SPREADER HOPPER VIBRATORS

VIBCO DC-450
- Tough & Reliable
- 12 & 24 Volt Models
- Use on your V-box to keep your ice control mix moving!

Keep On The Go In The Snow!
- Easy push button operation keeps you safe and warm inside your cab.
- Don’t beat up your equipment or your body by shoveling. Vibrate your clogs away!

Stop Shoveling Start Vibrating

"We used to bang on the sides of our trucks..."
Material bridged and stuck in the bin. High humidity, low temperatures, an aggressive sand to salt ratio, and a v-shaped box made for very slow going. We were climbing up on the truck to shovel the mix or bang on the hopper on just about every job. Banging and shoveling solved the problem, but it slowed us down, damaged the bin and was a safety concern. I talked to my equipment guy and he recommended a VIBCO SandBuster 12 Volt DC Vibrator for the job. It was easy to install and has made a big difference in our efficiency. Thanks!

S. Dierdorff, Pennsylvania
